PROFILE

Somali student who completed school in 2026 with Grade A on the government exam. Aiming to study Electrical Engineering at Somali National University (SNU). Disciplined and curious, committed to sharing knowledge in science, engineering and technology to benefit myself, my people and my country.

EDUCATION

Mohamed Hirsi Nor Siidii School | Completed 2026

- Grade A on the government exam. Studied daily from the first day of the final year, including group study with friends at a local mosque.

Somali National University (SNU) | Intended, 2026 admission

- Preparing for the admission exam with past papers (2022–2025) in English, Biology, Chemistry, Physics and Mathematics. Chosen because it is a public university and offers the engineering path I want.

ACHIEVEMENTS

- Grade A, government exam (2026).
- Created a personal website to share knowledge in engineering, physics, maths and technology with students and the community.

FOCUS AREAS

Electrical engineering and electronics • Physics and mathematics • Programming and technology • Study planning and exam preparation • Research and interviewing

INTERESTS

Technology news, electronics and science education.
